Summary

For over 17 years I have been dedicated to the research and development of optimization, customization, and building flexibility strategies for the offer of residential units that can be more suitable and last longer. My journey has been motivated by thoughts, plans, and actions guided by information. Therefore, I look for professional challenges where I can use my research and data analytic skills to contribute to decision-making regarding the built environment to better suiting people's demands and diverse lifestyles.

Experience

Junior Programmer

SaibroTech

Jul 2022 - Present (3 months +)

Back-End Development (Python)

- Database Concept (MySQL)

- Database Modeling (Django)

- Deployment (Docker)

Lecturer

Universidade Federal de Santa Maria

Oct 2020 - Present (2 years +)

Teaching drawing, building construction and career planning in architecture

Postdoctoral Researcher

PPGEP/UFSC - Programa de Pós-Graduação em Engenharia de Produção

Jan 2019 - Feb 2021 (2 years 2 months)

Planning and development of research, data analysis using bibliometrics and clustering, report and article writing, editing, and reviewing in collaboration with other researchers.

Information Analyst

Sebrae Santa Catarina

Jun 2017 - Jul 2017 (2 months)

Research, content development, and writing of business intelligence reports and trend bulletins for different industry sectors to offer an informational foundation for decision-making to help small and startup businesses prosper in a competitive environment.

Assistant Planning Consultant

PD System Corporation / Subsidiary of the Shimizu Group

Apr 2016 - Feb 2017 (11 months)

Junior Architect

Bragaglia Arquitetura

May 2009 - Mar 2010 (11 months)

Worked closely with one of the partners and his associate, at the first year of implementation of the company's second office, in Florianopolis.

Responsible by streamlining the schematic, design development and construction document phases. Was deeply involved with the design of about 12,000 m2 of residential, commercial and institutional buildings in eleven months.

Projects included single detached houses, renovation of apartment units, clothing retail, food retail, supermarkets, and institutions in the south of Brazil.

Clients included: Hippo, Koch, Muffato and Zoni (supermarket chains), and OCESC (Organization of Cooperatives of the state of Santa Catarina).
